About Me

My name is Mutiara Rahmah. I am a computer science student at binus university and I am a BINUSIAN 25. I really like learning, seeking experience and always interested in trying new things. I work hard and can be responsible for what has been given to me. This year I enjoy learning about front-end such as html, css, javascript. I think it's very interesting and I love it. I hope to learn more about the front-end. I have a dream to be a front-end engineer in the future.

Experience

Bina Nusantara Computer Club

During my time as an activist and committee, BNCC provides many opportunities to develop my hard skills and soft skills

- **Chief Internal Officer**

November 2022 - now

I have the responsibility to manage the internal division. The internal division is a division that manages and develops all existing resources at BNCC. These resources include human resources and technology

- **Activist at BNCC**

Oct 2021 - November 2022

- ↳ **BNCC Opening Season 2022 - Person in Charge**

Leading and supervising four (4) committee divisions with a total of 43 people and Successfully recruited 373 new members to become part of the BNCC family

- ↳ **TechnoScape 2022 - Technology and Registration Staff**

TechnoScape is the biggest Technology event held by BNCC. In this project I as part of the website development team for TechnoScape 2022.

- ↳ **Technology Project Member (TPM) - Front End Website**

I attended a front-end developer training where I learned more about html, css and js. In this training, I and another team worked on a final project to create an event website

Team Promotion BINUS University
